The Chicago Police and Firefighter Training Academy (CPFTA)

We are looking for high school sophomores interested in public safety, fire science, law enforcement, and criminal justice careers. The Chicago Police and Firefighter Training Academy (CPFTA) program provides training for students interested in careers in public safety, law enforcement, criminal justice, and fire science. The 2-year program was developed jointly by the Chicago Public Schools' Department of Career and Technical Education (CTE), the Chicago Police Department (CPD), the Chicago Fire Department (CFD), and the City Colleges of Chicago (CCC). The program recruits and trains up to 250 public and non-public high school students each year. In addition to high school and college training, students have the opportunity to participate in a paid summer internship between junior and senior year to promote a better understanding of all aspects of careers in public safety.

Cost: Free

NBA Crump Law Camp

The National Bar Association Crump Law Camp was established to provide students entering the ninth through eleventh grades (between the ages of 14 and 17) with an introduction to the American judicial system. Campers will be housed on the campus of Howard University and live in a protected campus environment. The inaugural two-week camp was held at Howard University School of Law. The camp provides students with an exciting academic and social agenda, which includes field trips in the Washington, DC area. The competitive highlight of the camp is the Evett L. Simmons Mock Trial Competition. The four winners of this competition are invited to the NBA's Annual Convention. Washington, DC.

Cost: varies Free-\$1400 (sliding scale)

When: July

Deadline: April

National Association of Black Accountants ACAP

The Accounting Career Awareness Program (ACAP) was created to provide minority high school students with early exposure to career opportunities within the business and accounting professions. The primary objective of ACAP is to increase the number of minority students pursuing careers in accounting and related business areas.

ACAP is a summer residency program giving students the opportunity to reside in college dorms at the University of Illinois at Chicago's campus for five days and four nights. The students attend classes on accounting and college preparation. Classroom topics are enhanced through team building activities, professional office tours, field trips, as well as other activities.

Eligibility:

Applicant must be a student who meets all the following requirements:

High school students

Possess a grade point average of 2.5 or above on a scale of 4.0

Cost:

Free

Applications due:

May

African American Adolescent Male Summer Literacy Institute (AAAMSLI)

The African American Adolescent Male Summer Literacy Institute helps connect young black males to literacy as a possible way out of violence and poverty. Students read and write about their plight and issues affecting their generation, while learning valuable life skills. "The institute focuses on using a variety of fiction and non-fiction texts as tools to support African-American adolescent males to write about the multiple contexts that shape their lives". The institute features reading, writing, spoken word and mentoring to help nurture the next generation of socially conscious readers and writers. Five young males will be selected for a two-day trip to Harlem in August, and have their writings critiqued by Walter Dean Myers.

Cost:

Free (students paid a \$150 stipend)

When:

July, from 10 a.m. to 1 p.m., Tuesdays, Wednesdays and Thursdays

The High School Summer Institute at Columbia College

This is an intensive non-residential 5-week program for creative high school students that have completed their sophomore, junior, or senior year of study who want to immerse themselves in the visual, media, and communication arts.

Students spend the summer exploring their ideas, developing the technical skills that bring their ideas to life, and earning college credit while they're at it. High School Summer Institute students study with the same working professionals and scholars who teach Columbia's undergraduates. Students also hone their craft in Columbia's state-of-the-art facilities—film and video production and post-production studios, photography labs, animation labs, graphic design labs, dance studios, concert halls, theater stages, radio station, recording facilities, art studios, performance spaces, television studios, and more.

When: July – August

Application Deadline: June
